Iconic design meets inspiring brass: Dornbracht introduces Tara in a Brushed Durabronze finish that radiates a glow like never before.

02_Tara_The Inner Glow.jpg

The Brushed Durabronze finish appears to glow from within, a striking characteristic that further highlights Tara's extraordinary charisma. The unique finish gives the fitting a matte look with impressive sheen that highlights its golden hues making it undeniably radiant.

Tara – a radiant icon: Its style-defining design has received countless accolades and has been emulated numerous times around the world. What defines the Tara series of fittings lies within its balanced

proportions, characteristic cross handles and striking, semicircular spout. Its timeless, archetypal design seems as familiar as it does new.

Tara in Brushed Durabronze is a direct response to this growing demand. It blends effortlessly into contemporary interiors even when contrast and tension are present. Depending on the interior surroundings, Tara in Brushed Durabronze can appear luxurious or modest, classic or avant-garde, elegant or expressive.
