Now available: Compact single-lever mixer from Dornbracht –
For adaptable and functional working in the kitchen

Copyrights: Dornbracht

01a-b_Dornbracht_Profi single-lever mixer.jpg

A mere 45 centimetres tall and with a 20-centimetre projection, the new, small Profi fitting is also suitable for kitchens where space is limited around the water points. It can be installed in alcoves, under wall cupboards or under shelves. Seen here in combination with white marble, black stained oak and the new Dornbracht kitchen sink in glazed steel in matt black. Architectural rendering: Meiré und Meiré / d&d Medien
