

Beauty, quality, timelessness: Dornbracht icons with custom finishes

Iserlohn, November 2020

There is a new awareness and appreciation of beautiful things that last. Sustainable, conscious luxury that puts quality first in every respect: in iconic design, in the choice of materials and finishes, in workmanship, and in manufacturing.

Choosing a product that is durable and retains its value over time, one which transcends styles and trends, is always an expression of personality and attitude. It also shows a discerning sense of style and a commitment to sustainability. Dornbracht's design icons embody lasting value and timeless elegance that can be enjoyed for a lifetime.

Manufacturing quality and iconic design language combine characteristics and stylistic elements that have shaped sophisticated bathrooms and kitchens for decades. Proven design principles such as exact angles and radii, clear lines, and precise contours ensure durability and longevity that outlasts eras, styles and trends. Dornbracht's wide range of designs and finishes provides maximum design freedom and room for individualization.

Tara, MEM, Madison, CL.1 and LOT for the kitchen are particularly striking examples of this. Five distinct designs that share a common essence: a strong character that allows them to blend in confidently with their surroundings.

Tara unites traditional design and timeless modernity. Inspired by the Bauhaus school, it interprets an archetype that has been familiar for generations. With its characteristic cross handles, this fitting makes the bathroom or the kitchen an aesthetically designed living space. Unusual finishes such as Brushed Durabrass, which is plated with 23-carat gold, give it a luxurious look.

MEM embodies purity, reduction, and balance. The fitting adds stylish elegance to minimalist bathrooms, yet its intentionally subtle design places the element of water in the foreground. Its flat, wide spout conveys an elementary aesthetic. In addition, MEM impresses with expressive finishes, such as the velvety, exquisite Platinum matte.

The progressive CL.1 is the icon of a new age. Dynamic, sculptural and ultra-modern, it adds an extravagant touch. CL.1 can be customized with different handle variations and finishes.

The architectural LOT fitting for the kitchen is a truly quintessential representation of its time, yet timelessly beautiful, nonetheless. As an icon, LOT stands for clarity in form and function, two aspects that are not mutually exclusive with this fitting.

About Dornbracht:

Dornbracht, with headquarters in Iserlohn, Germany, is a leading specialist for superior designer fittings and accessories for bathrooms, spas and kitchens. The company was founded in 1950 and today is internationally renowned among architects, designers and luxury consumers for its product portfolio in more than 125 markets.
